

AlbertaGreen

Foothills Mix

Specially developed for performance in elevations of 3,000 to 8,000 feet. A resilient blend of cultivars capable of thriving in Alberta’s tough growing conditions. This mix has excellent cold and drought tolerance and is good for soil stabilization in poor soils.

20%	Annual Ryegrass	6%	Sideoats Grama
15%	Slender Wheatgrass	6%	Big Bluestem
12%	Creasted Wheatgrass	5%	Blue Grama (Coated)
10%	Mountain Brome	5%	Switchgrass
10%	Hard Fescue	1%	Sand Dropseed
10%	Canada Bluegrass		

Characteristics:

- Germination in as little as 5 days
- Growing height between 36”-60”
- Exceptional drought tolerance
- Excellent for soil stabilization in poor soils

New Seeding:

Broadcast: 20-25 lbs/acre
 Drilled: 15-20 lbs/acre

Overseeding:

Broadcast: 10-15 lbs/acre
 Drilled: 5-10 lbs/acre
